

MEET

Mrs. Linman

Hello students and families! Welcome to **Geometry with Data Analysis including Math Lab!** My name is **Mrs. Linman** and I will be your teacher for one semester! I am looking forward to getting to know you, but first here is a little about me! I am from Cherokee County, Alabama and attended Jacksonville State for my undergraduate degree and Kennesaw State for my master's degree. This is my sixteenth year teaching and my second year at Gadsden City High School. I blow out my candles in August and I celebrate my wedding anniversary on Leap Year Day! I spend a day in the life as a Linman with my husband, daughter, three dogs, two cats, six fish, one lizard, and a skinny (guniea) pig!
